

2025 Factory Automation Training Program

Products, Markets, and Applications

Your automation, our passion.

 **PEPPERL+FUCHS**

Overview

The Pepperl+Fuchs 2025 training program consists of online introduction courses and in-person training. Each offers several modules and is designed to give participants a detailed understanding of our products and how they are applied. Courses vary from basic product and technology overviews, to more advanced education and live product demonstrations.

The Basic Product Training course is offered online via the Pepperl+Fuchs NetPartner Portal and is highly recommended, especially if you are new to sensor technology, before attending the two-day on-site product training.

If you have any questions about the program or need help deciding which course is best for you, please contact Todd Belt, Channel Manager at tbelt@us.pepperl-fuchs.com or call **+1 330 486-0288**.

Basic Product and Technology Training

For a convenient introduction to Pepperl+Fuchs products, use this online course as a prerequisite for additional product training.

Successful completion will allow the student to:

- Understand basic sensor theory, operation, and application.
- Comprehend the fundamentals of the Pepperl+Fuchs model numbering system.
- Possess the necessary competency to attend the Intermediate Product Training course.

Areas covered include: inductive, capacitive, photoelectric, and ultrasonic sensors, rotary encoders, identification systems, AS-Interface, and IO-Link.

Log on to the [NetPartner](#) area of the Pepperl+Fuchs website. Click on "Basic Product Training Courses" in the Factory Automation Training+Events section, then select "Begin", fill in the requested information, and select "Sign In".

Intermediate Product Training

In 2025, these two-day courses will be held at our facility in Katy, Texas. They are designed for those seeking a higher level of knowledge about Pepperl+Fuchs products and application objectives. In-depth discussions and product demonstrations will be offered on many different product groups, including: inductive, photoelectric, LiDAR, IO-Link, networking switches and gateways, identification systems (RFID), vision, ultrasonic, vibration, encoders, inclination and positioning, cordsets, and more.

Successful completion of this course will allow the student to:

- Understand the major features and benefits of Pepperl+Fuchs products.
- Have an advanced understanding of the Pepperl+Fuchs model numbering system.
- Comprehend how Pepperl+Fuchs products are applied in various industry environments and systems.
- Select the best solution based on the electrical, mechanical, and environmental parameters of an application.

Attendees will have the chance to engage with product hardware and view live demonstrations. On day two, a facility tour will also be offered, providing attendees with the opportunity to see Pepperl+Fuchs products in operation.

2025 Factory Automation Training Reservation Form

Submit a separate registration form for each attendee by completing ALL information below (please print).

Please email or fax this reservation form to Jennifer Jewett. Email: jjewett@us.pepperl-fuchs.com Fax: +1 330 425-4607

Name: _____

Company: _____

Address: _____

City: _____ State: _____ Zip: _____

Phone: _____ Ext. _____ Email: _____

_____ Attendee will be staying at the designated hotel _____ Attendee is local and will drive each day

Please place an "X" next to the course you wish to attend.

X	Training Course	Location	Date
	Intermediate Training (2-Day)	Katy, TX	May 20–21
	Intermediate Training (2-Day)	Katy, TX	Sept. 9–10

***NOTE:** Please arrive the day before the course starts, as the courses run all day on both days.

Registration Fees:

Registration will not be accepted without payment.

Intermediate Product Training Fee:

Early Bird: \$250 (up to one month before the course starts)

Standard: \$300 (one month to two weeks before the course starts)

Late Registration: \$400 (within two weeks of the course—cannot guarantee room rate)

All registrations must be received by Pepperl+Fuchs two weeks prior to the course date.

A secure Credit Card payment link will be emailed to the registration contact listed above, and **expires within five days**.

Please complete payment promptly. If you have any questions or issues, contact Jennifer Jewett at jjewett@us.pepperl-fuchs.com or call **+1 330 486-0174**

1. Each attendee of the Intermediate Product Training course will receive a credit for products presented during the course with a retail value of \$1,500.
2. Pepperl+Fuchs reserves the right to cancel a course up to two weeks before the start date.
3. Return flights **SHOULD NOT BE SCHEDULED TO DEPART BEFORE 6 P.M.** on the final day of the course.
4. You will receive an email confirmation with all details approximately two weeks before the course starts.

Your automation, our passion.

- Industrial Sensors
- Industrial Communication and Interfaces
- Enterprise Mobility
- Hazardous Area Products and Solutions
